FIXED PRICE LIST AND MAIL BID AUCTION OF LATIN AMERICAN COINAGE

Auction Closing date: December 2, 1987

This modified style "BUY or BID" catalogue will be our final communication with many of you prior to the suspension of our normal business activities during our January-August 1988 sabbatical. That subject is discussed below; first, let's review the mechanics of this current presentation.

* * * * * * * * * * *

This is essentially two catalogues under one cover. Except for the 50 lots with stars in the price column, *all items are offered at a specific "fixed price". Orders at these listed prices will be processed as they arrive during the month of November.* The coins are sent "on approval" (with the standard two-week return privilege) although no returns will be accepted after November 28 (at which time, all sales will be considered to be final). Payment will also be due two weeks after your receipt of the package unless other specific arrangements are agreed to with us.

Even during this November sales period, discounts of 2% - 10% for substantial purchases can be negotiated. *This will be arranged for you, as is appropriate, even if you do not request it!*

Depending on when this catalogue is printed and mailed, some of you may receive it in late October. Nonetheless, ***no orders will be processed until November 2;*** this gives everybody a "more even opportunity" to obtain items of special importance to them and it will allow Freeman to be away from the office during the last ten days of October. Any orders received by phone during that time will receive the same priority as if received the morning of November 2.

* * * * * * * * * * *

All lots not sold in the November fixed-price segment, plus all lots with stars in the price column, will consitute one of our ***standard mail bid auctions which will close on the evening of Wednesday, December 2.*** Recognizing the propensity of most collectors to try to buy their coins as cheaply as possible during this relatively un-intensive period of market activity, we suspect that as many as 600 lots will be available via this auction. Realistically, *most will sell at 70% - 90% of our fixed-price level* (thereby comparable to a "high wholesale"). A few may end up at levels above our fixed price and a few will sell for under half that figure. Many are fairly reserved at 60% - 80% of the listed price. *Be that as it may, each of you is free to bid at whatever level you wish.*

In general, *our auction terms-of-sale* (see page 2 in the May 1987 catalog) *will be in force.* ***No buyer's fee will apply and your bids will be reduced as is reasonable*** based on other bidders (and the reserve, if any). See the bidsheet for some other options.

Payment by January 4 is essential since we will be closed shortly thereafter. Freeman may request advance payment from some clients with imperfect previous payment records or new clients without impeccable credentials. Payment over three or six months is possible but eventual delivery of the lots may be substantially delayed. Interest on any invoices not fully settled by January 4 will accrue *retroactive* to December 2 at 1% per month.

The lots without a price (with stars in the price column) ***are reserved for sale only via the December 2 auction.*** Estimates of their value are available via telephone. Some of these are truly rare and are the type of material seldom available in today's exiguous market.

Photographs of most important items are included. In order to fit all onto the 32 pages of special paper, some were eliminated and the final pages became crowded. Call if other photographs are essential to you.

We do hope that this two-segment format will appeal to everyone and will distribute our workload so that every package is mailed by December 5. Freeman will be at our table at the New York International Convention (on December 12-14) and can deliver your items there if you so prefer. Recognizing that various other auctions will occur one or two weeks after ours, and that some buyers need to know their outlay in our sale in order to prepare bids for those later sales, such information will be available by phone beginning at 3 PM on December 3.

If there are questions or ambiguities, please feel free to write or call. We cater to collectors and attempt to accommodate their special needs and requests whenever reasonable.

1988 CALENDAR OF EVENTS

Our sabattical from the daily activities of a coin dealer will commence the second week in January and continue through August. During that time period, Freeman will not be in California nor will he maintain normal business accessibility. However, in case of "emergencies" or very special circumstances, you may contact him by calling Peggy Elmen at Worldwide Coins of California (phone: 707-527-1007). Freeman does not currently anticipate attending CICF in March nor COIN in May. He may attend the ANA convention in Cincinnati in late July.

We will have a six-figure bank account (upon our departure) and another $500,000.00 credit available to us. If significant Latin American silver coins or collections become available during that period, we will be interested.

Our next catalogue is tentatively scheduled for November 1988 shortly after the US presidential election. It should be an interesting time for the coin business (we still project a boom market for collectibles in 1989-90). Consignments to that sale can be tentatively arranged by mail through August.

Mail to our usual address will be forwarded once a week. As we normally receive five to ten requests for information each week, we ask your patience awaiting a reply to those (our library will not be available to us except for portions relevant to Bolivian Silver Crowns!).

We wish each of you a happy and prosperous life until our return and we hope the coin hobby will be an exciting component in all our lives at that time.

*1 **ARGENTINA - GOLD** 8 Escudos 1838, Friedberg 8, C109, KM9. Very Fine 2500

*2 *ARGENTINA* - **CROWN**: 8 Reales 1813J, Elizondo 1, C15, KM5. *Rio de la Plata* sunface; the first crown of the country and the first crown in most Latin American crown collections. Happily, it is also one of the most attractive designs and one of the most important historically. Given this high degree of desirability and visibility, it is particularly pertinent that this example is the *most beautiful we have ever offered.* Pedigreed to a major international collection where it has resided at least since 1958, this specimen has superb old toning over lustrous surfaces. Very minimal crudeness and a nice strike. Almost UNCIRCULATED. 1350

*3 -*La Rioja* 8 Reales 1827P, E14, C26, KM20. Vertical axis (so-called *inverted reverse*) and six pairs of leaves. Unflawed and lightly toned VF+. 1000

---

*4 -La Rioja 8 Reales 1828P, E15, C26, KM20. *Superb example* of this earlier date. Boldly struck. Lovely almost UNCIRCULATED. 1250

---

*5 -La Rioja 8 Reales 1832P, E24, C26, KM20. *Elizondo subtype with thorns added between leaves.* Scarce type and date in unflawed lusterlike VF-EF . . 425

*6 -*Cordoba* 8 Reales 1852, E31, C71, KM32.1. Light toning over virtually full luster and with a minimum of handling evidence. AU-UNC 375

7 -***Republic*** Peso 1882, E33, Y6, KM4. Large Liberty head. Sharp toned A. UNC . 190

*8 *ARGENTINA* - **MINOR COINAGE**: Un Decimo 1822 of *Buenos Aires*; KM-Pn 1 (like C41), CF-ENS 7. Bronze *pattern* with vertical axis struck at the Birmingham mint. Various tiny marks in open field. Chocolate PROOF. . . . . ***

9 -Buenos Aires copper 2 Reales 1860, KM11, C53. Scarce type since virtually as struck with bare luster traces. EF-A. UNC. 65

*10 -*La Rioja/Chilecito* One Real of undated style (struck in 1823). C91. Struck during the brief opening of a mint in Chilecito before the operation was moved to the township of La Rioja. This provisional style was discussed on pages 55-56 of our 9/85 auction but this "more common" type was absent in that exceptional collection. ***Very Scarce*** *(perhaps rare; our first example).* Naturally toned F-VF. 825

*11 -*La Rioja* (township) 4 Soles 1828P, C25, KM22. Style based on the 1813-1815 Potosi issues with the appealing sunface motif. Scarcer die variety with numerous small horizontal lines crossing the upper arms. *The boldest strike and most attractive example we recall viewing.* Lusterlike EF 350

*12 -*La Rioja/Famatina* 4 Reales 1852B, C103, KM21. ***RRR*** *grade of this rare one-year type.* Our 9/85 collection example (VF sold at $315) is about as nice as normally encountered. This specimen has a small flan split at the date. It is beautifully toned with semi-reflective qualities and nearly full luster (particularly on the obverse). From the same old collection as lot #2. Easily EF 750

*13 -*Tucuman* provisional 2 Reales date "752" (struck in 1823), KM1, C152, CF-Tuc-1. Style of Potosi cob 2 Reales but distinctive texture; issued to pay troops late in the war. Very similar to our 9/85 lot 339 (sold $175). "P" (over unclear letter) to left of date; style of this letter (monogram?) and other aspects are very similar to Cunietti's two plate coins. Almost VF. 225

14 -***Republic*** *pattern* 1 Centavo 1878, KM-Pn 7, CF-ENS 22. Encircled Liberty head/Arms. Orange UNC 65

15 -2 Centavos 1888, Y2, KM8, CF-NAC 29 (UNC $150). Attractive with much obvious luster. AU-UNC. 70

16 -*Medal* dated 1783-1983 featuring youthful military bust of "SIMON BOLIVAR". Pewter; 40 mm. UNC. 30

*17 **BARBADOS** Farthing token (circa 1850), Pridmore 28. "Moses Tolanto"/"Freedom Without Slavery". As Byrne lot 59 with slash cancellation. VF+ 95

-- **PLEASE NOTE** that a triple asterisk (***) in the price column indicates the lot is available only via the December 2 auction.

18 **BOLIVIA - GOLD** ½ Escudo 1839LM, Friedberg 25, KM100, C56. Small solder spot at top. VF+. 85

*19 -1 Escudo 1837LM, Fr24, KM98, C57. Early Bolivar style-*a very scarce item in high grade.* Almost identical to the Hammel example sold at $575. Well struck and lustrous EF-AU. 650

*20 -1 Escudo 1856FJ, Fr35, KM114, Y13. Final style and date of Bolivar bust gold. *Very similar to the Hammel specimen sold at $825 five years ago.* Almost UNCIRCULATED. 625

*21 -8 Escudos 1831JL, Fr21, KM99, C60. *1st year of Republican gold.* Pleasant VF 875

*22 -8 Escudos 1837LM, Fr21, KM99, C60. One edge nick. VF-EF. 775

*23 -*Proclamation* 2 Escudos, (circa 1841). ***Unlisted** as a gold striking by both Fonrobert and Burnett;* dies similar to Burnett 126.2 and Fonrobert 9787. Cleaned and lightly tooled (top is flattened suggesting jewelry mounting). ***RARE.*** VF-EF 1000

*24 -Proclamation 1 Escudo 1869, Burnett 114. Melgarejo on his birthday. *Also* ***RARE.*** Holed at top; VF. 400

-- **NOTE:** The next 67 lots represent some very unusual varieties, and some very scarce dates, from the Potosi cob 8 Reales series. As Freeman has been studying this series in preparation for assembling his book on Bolivian crowns, various of these have come to light. Specialists should recognize the special opportunity hereby presented to obtain atypical examples.

25 *BOLIVIA* - **CROWN**: *Potosi* Cob 8 Reales, *Philip II*, assayer B, Sellschopp 157 (PB2 of circa 1580). Early issue of the small module type with seven fleur-de-lis. About Fine. 115

*26 -Cob 8 Reales, Philip II, assayer A (circa 1588), Sellschopp 214. Nice example on a large flan with 95% of central detail and 80% of peripheral legends. Very Fine. 300

27 -Cob 8 Reales, Philip II, assayer R (quite bold) from circa 1591. Sellschopp 245; the final emission of PR-1 with a broken lower paw. Crude but partially bold. Cleaned VF. 125

*28 -Cob 8 Reales, Philip II, assayer B of very late style (circa 1595). S280 with five fleur-de-lis. Superb central detail and much legend. Very Fine . 165

29 -Cob 8 Reales, ***Philip III*** (with clear ordinal), assayer R (bold) from circa 1610. S285 (PR3). Small module variety with 100% struck centers. VF . . . 175

*30 --similar but large module variety with 85% of all obverse details evident including "PHILIPVS III DG HISPANIARVM". Exceptional detail for assayer R. Very Fine. 200

*31 -Cob 8 Reales, Philip III, assayer B from circa 1610 with outer circles (obverse and reverse) composed of contiguous small "x". S332. Some small surface nicks but much detail including peripheries. F-VF 200

32 -Cob 8 Reales, Philip III (visible) of assayer Q (bold) from circa 1616. S356 variety; Calbeto 977. Much of king's name is visible plus 75% of centers and 25% of periphery. Broad flan is naturally toned and reasonably attractive. VF. 175

*33 -Cob 8 Reales 1618T of "(PH)YLYPVS III D". *Rare date/assayer unlisted by Sellschopp* (but similar to S401). Assayer letter T is clear. Date is clear "16" plus 60% of final "8"; variety with REX and date but no word "ANO". Normal castle-lion order. Nearly 100% centers and naturally toned. Exceptional and currently ***RRR.*** VF 350

34 -Cob 8 Reales of "ꟼHYLYPVS III ꟾG" with bold assayer T. Probably 1619; legend with**out** "ANO" and with lion-castle transposition. Weak centers but much external detail including bold ordinal. VF 150

*35 -Cob 8 Reales of "PHYLPV(S·III)", assayer T of S-PT-1 style. Normal castle-lion order on reverse. ***Very unusual error*** with upper obverse shield punched incorrectly so that castle-lion segment is at upper right (not on the left as on all other 8 Reales cobs ever studied by us!) similar to Sellschopp's #437-438 of assayer P. 90% of central detail. Fine plus. . 375

36 -Cob 8 Reales of Philip III, assayer T from circa 1620; S404. *Variety with lions-castles transposed on both obverse and reverse.* Fine 135

37 -Cob 8 Reales of Philip III based on S-PT-1 variety. "162-" of date. Transposed lion-castle only on reverse. 85% of central areas. F-VF 125

38 *BOLIVIA (cont.)* Cob 8 Reales of ***Philip IIII***, assayer P of earliest style. Sellschopp 432 (PP-1) of (1621-23). Lion-castle transposition on reverse. Nice centers but no legend. AVF 135

*39 -Cob 8 Reales 1622P, S436, Calbeto 991. Variety with flower (not dot) between P-P (both very bold). Certain four-digit date and nice centers. Ex-Louis Collins/Heritage at $385. Very Fine. 385

40 -Cob 8 Reales of Philip IIII (clear), assayer P (clear). Circa 1622-24 with transposed lion-castle on reverse and date (without "ANO") jammed at 11-12 o'clock. Uneven strike. F-VF. 125

41 -Cob 8 Reales, Philip IIII, assayer P (S-PP-2 variety of 1625-28). Correct castle-lion order; five fleur-de-lis. Reverse legend seems to end "REX ANO" without room for the date! Nice centers. VF 125

*42 -Cob 8 Reales 1629T. Value as an arabic "8" *(first year with this development)*. Castle style not in Sellschopp. Certain date and considerable detail on a large flan. *Unusually attractive for this era.* VF-EF 350

*43 -Cob 8 Reales 1630T; S471 with three dots with the P-T. Some doubling but much detail. F-VF 225

44 -Cob 8 Reales 1630T. S-PT-3 (related to S471); three floral devices with the P-T. F-VF 150

*45 -Cob 8 Reales 1631T, S476. Certain date; dots at P-T. ***RARE.*** Uneven but crucial data is clear. Fine+. 325

46 -Cob 8 Reales of Philip IIII (with ordinal and most of legend) probably from 1631 (80% probability). Similar to S476. Some central weakness but 60%+ of periphery is visible. F-VF. 145

*47 -Cob 8 Reales 1633, S480. Typically crude but 75% of centers plus ***full bold date*** and full name of king. ***RARE.*** Fine. 400

48 -Cob 8 Reales, (circa 1636-39), S491-493 (same reverse lions and castles). Style with assayer TR monogram looking much more like "FR" (this is very clear). Surface scratches on shield. Fine+ 110

49 -Cob 8 Reales 1643. See S496 but assayer is not visible. "43" of date is obvious and clear. Crude Fine. 275

*50 -Cob 8 Reales 1645. See S511 but lions and castles are different than on any other 1645-46 studied. 50% is visible including bold "645". F-VF 275

*51 -Cob 8 Reales 1645T. Sellschopp PT-6 based on castle style but reverse lion is uncatalogued. ***RARE*** with certain "ANO--45" and "P-T". Nice centers; VF . 400

52 -Cob 8 Reales of Philip IIII (visible) and assayer T (bold) from about 1645. S510. Well detailed but unfortunately only the "16" of the date. VF 125

53 -Cob 8 Reales of assayer "O" (1649-51) with "PHILIPVS IIII HISPANIAR" mostly very clear. Some heavy dirt should be removed as there is much detail. F+. 150

*54 -Cob 8 Reales 1650, assayer "O". Variety of Calbeto 1033 and S541. With a virtually complete and relatively clear *revalidation* ***countermark*** *of an "O" below a royal crown.* The host coin is unevenly struck and has two small puncture attempts but nonetheless is quite desirable due to much crucial data being present including the king's name, denomination, assayer letter (twice-*the first issue with this feature*) and with a sharp zero in the nearly clear "1650". *Unsalvaged and* ***RARE.*** F-VF. 700

*55 -Cob 8 Reales 1652E, Calbeto 1042. Final style in this transitional year; with 2.8 dates visible and bold "I-PH-6". AVF 525

*56 -Cob 8 Reales 1652E, Calbeto 1042 with 2 dates visible. *Has Brazilian 1663-1668 countermark of "600" Reis.* Salvaged; A. Fine. 375

*57 -Cob 8 Reales 1655E, Calbeto 1045. With three dates (third is almost full) and 50% of legends. Smaller "PH" above value than on next lot and the central "55" is atop the waves. Attractive toned VF 350

58 -Cob 8 Reales 1655E, Calbeto 1045. Large "PH and "55" is into the waves. Two full dates and some crucial data. Nice F-VF 185

*59 -Cob 8 Reales 1656E, Calbeto does not list this variety *without "PH" at top* (first such emission). Two dates but crude in peripheries. *Probably RARE.* F-VF. 225

60 -Cob 8 Reales 1657E, Calbeto 1049, without "PH". Seven of date half submerged into waves. Parts of all 3 dates. Fine 130

*61 -*Round Royal Presentation* Cob 8 Reales 1658E, Calbeto 1050. Small plug near top but 100% detailed and no distracting doubling of the strike. Attractive toned VF. . . . . ***

62 BOLIVIA (cont.) Cob 8 Reales of *Carlos II* dated 1669E. *Unlisted by Calbeto as a genuine regular issue.* Three dates but crude. Fine. 200

63 -Cob 8 Reales 1670E, Calbeto 1070 (this is ***his plate coin*** #1125 listed as an "error" due to the obverse date indicated as "6670"). Three dates. Toned F-VF 225

*64 -Cob 8 Reales 1672E, Calbeto 1074. Unusual variety of date with obverse having "672" (not "72" as usual) and without a dot above or below the obverse assayer. Potosi appears as "POTOS·ANO·1" but this may be the result of doubling. *Unusual example.* Fine+ 250

*65 -Cob 8 Reales 1679C, Calbeto 1088 ***Plate Coin.*** Also Ex-Americas collection (Kagin's, 8/83, lot 1205, $375). One-year type (1678 is unconfirmed by us) with two visible "C" and a certain date. Nearly VF. 400

*66 -Cob 8 Reales 1680V, Calbeto 1091. 2.5 dates. Small hole; VF. 250

*67 -Cob 8 Reales 1682V, Calbeto 1094. Two dates, three "V" and bold name of king. Desirable VF 250

*68 -Cob 8 Reales 1683V, Calbeto 1096. On a large and unusual-shaped flan featuring three dates and nearly full central details. VF 275

69 -Cob 8 Reales 1684 of assayer VR (twice on the reverse) and assayer V (on the obverse). *This is a muling of Calbeto 1097 and 1099 during the transition year.* Most central details but noticeably etched by sea water; otherwise F-VF 175

*70 -Cob 8 Reales 1685VR, Calbeto 1100. 2.3 dates. F-VF 200

*71 -Cob 8 Reales 1687VR, Calbeto 1103-4. Three dates-*none of which is over an earlier digit such as Calbeto would indicate.* VF 325

*72 -Cob 8 Reales 1689VR, Calbeto 1107. ***RR date***-the first we have handled. 2.75 dates are visible. Decent toned AVF. 350

73 -Cob 8 Reales 1690VR, Calbeto 1109. Bold obverse date but reverse central date is blurred by doubling. AVF. 200

74 -Cob 8 Reales 1697CH, Calbeto 1117. Ex-Americas collection lot 1226 ($330). Two dates and most of two assayer monograms. Very crude F-VF. 375

75 -Cob 8 Reales 1710Y of ***Philip V,*** Calbeto 1142. Very crude style typical of era. ***RARE.*** Fine 185

76 -Cob 8 Reales 1717Y, Calbeto 1150. ***RR date***-first we have handled. Two full clear dates are visible on a relatively large flan. Quite crude but nice for this era of poor quality control. Dirty Fine+. 240

77 -Cob 8 Reales 1719Y, Calbeto 1152. ***RR date***-first we have handled. One clear date on a large flan. Very crude VG 135

*78 -Cob 8 Reales of ***Luis Primero*** dated 1727Y, Calbeto 1166a. "LVIS" is clear as is one date and three "Y". The lower half is not struck. AVF. 600

*79 -Cob 8 Reales 1727Y, ***Calbeto 1168 plate coin*** of Luis I. The "·D·G·" spacing is very wide indicative of the Luis legend. With 2.3 dates and much central detail on a small flan. VF+ 500

*80 -Cob 8 Reales of ***Philip V*** dated 1737E, ***Calbeto 1185 plate coin.*** Some heavy earthy encrustation at the edge should be removed. With two bold dates and very sharply detailed (about as struck). VF-EF. 325

*81 -Cob 8 Reales 1739M, Calbeto 1188. "739" is bold on both sides as is the "M". *Ex-Americas collection.* Nearly as struck; AEF 325

*82 -Cob 8 Reales of ***Ferdinand VI*** dated 1754 C, ***Calbeto 1211 plate coin.*** One bold date and bold "C". *Very scarce.* AVF 350

83 -Cob 8 Reales of ***Carlos II*** dated 1761VY, Calbeto 1220, C8.5, KM45. One bold date (and part of both others) plus much of king's name. Bold "Y" to left of date and "V" visible on obverse. *Above par.* F-VF. 125

84 -Cob 8 Reales 1763VY, Calbeto 1222. Two dates, two "V" and one "Y", three mintmarks and part of king's name. Holed Fine 80

*85 -Cob 8 Reales 1769/8V, Calbeto 1232. ***RRR overdate*** (which is very clear); the only other example known to us is the less clear Calbeto plate coin. VF 400

*86 -Cob 8 Reales 1770J, *unlisted by Calbeto but the subject of a recent monograph by Carlos Jansen.* ***Very Rare*** one-year assayer of an initial otherwise reserved for the pillar coinage. Crude A. Fine. 500

87 -Cob 8 Reales 1770J. As previous but with a sun over mountains c/s of Guatemala (C124, KM100) on the back. Larger flan than previous but also crude and this one is holed. Fine 500

*88 *BOLIVIA (cont.)* Cob 8 Reales 1771/0 VY, Calbeto 1239. With 1.3 dates; a *scarce overdate*. Crude but some parts are bold. AVF. 250

89 -Cob 8 Reales 1771/0 V(Y), Calbeto 1239. As the last lot with a clear overdate; however this holed example has a weak Guatemala c/s on the reverse. Fine+. 150

90 -Cob 8 Reales 1771VY, Calbeto 1240. Two dates and clear "Y". Fine+. 115

*91 -Cob 8 Reales 1773/2, *unlisted by Calbeto*. ***RRR overdate*** (in this denomination) for this final year of cob coinage (from any non-provisional mint). Clear overdate; decent Fine. 400

*92 -*Pillar* 8 Reales 1769JR, E5, C13, fancy 9. Bold toned AEF. 450

*93 -*Bust* 8 Reales 1775JR, E13, C18, Calbeto 1251 ***(his plate coin)***. Superior lightly toned and attractive EF. 185

*94 -8 Reales 1777PR, E16, C18, KM55. ***Finest*** of date we recall. Totally unflawed on a broad flan. Uncleaned with lovely light toning. AU-UNC . . . 675

*291 *COLOMBIA* - **CROWN:** *Nuevo Reino* Cob 8 Reales of Philip IIII, early style, assayer A (circa 1621-1625). Unlisted by Calbeto but note the Numismatist article about the Atocha. N-R-A to left and ·VIII· to right of nearly complete shield (which has neither a granada nor Portuguese coat-of-arms). 26.4 grams. Lions and castles are interchanged on both obverse and reverse. Minor surface roughness indicating this may be a nice example of a sea-salvaged coin. AVF. . . . . ***

*292 -*Nuevo Reino* or ***CARTAGENA*** 8 Reales cob dated 162- (possibly 1628 or 1629). See Calbeto 1348 and Yriarte 1193. Mintmark and assayer to left of shield are R-N-E (with tiny mintmark letters). To the right of the undoubled and 95% clear shield is "VIII" vertically facing the shield. Visible in the periphery is "S·IIII·(D)·G". The reverse has non-interchanged castles and lions (also 95% clear) plus "(R)EX·162-". Weight is 26.22 grams.

Whether this piece was struck in Cartagena (most likely) or Nuevo Reino (the only other possibility) is open to further research. Bill Christensen, on pages 10-11 of his May 1982 auction sale of coinage from the wrecked Concepcion, argues forcefully for attribution to Cartagena. His primary focus is on the assayer letter probably being unique to Cartagena and, more importantly, the lack of a granada (pomegranate) anywhere on the obverse shield. *The presently offered coin is proof of this point due to its completeness.* Also, the reverse lions and castles are identical to all "E" assayer pieces cited herein.

This coin is dark but any oxidation is not readily apparent. Its details are far bolder and quantitatively more prevalent than on Christensen's related lots 208 and 214. *Important and currently quite rare.* Very Fine. . ***

*293 -Nuevo Reino cob 8 Reales, Philip IIII, early style of assayer P (circa 1629). Calbeto 1345, Nesmith 1. 26.4 grams. N-R-P left and ·VIIII·" (9 Reales!!) to right of shield. Salvaged from the Concepcion with light porosity slightly blurring the devices. AVF. . . . . ***

*294 -*POPAYAN* Colonial bust 8 Reales 1814JF, E8, C66, KM71. *The non-overdate variety; note our May 1984 F-VF sold at $1600. Type collectors wanting a single bust 8 Reales from each of the colonial mints have made this a classic piece.* This is an attractive example. Its only negative is a minor flan peel hidden in the king's garment. Otherwise without mintmade nor manmade flaws, the nice natural surfaces are lightly toned. Reasonably well struck with an especially pleasant reverse. Very Fine. . . . . ***

It has been eleven years since we handled this type (and that piece was offered as *"the third specimen of the type known"*). As such, it is more elusive than the Arequipa crowns or the Argentina 1840 "rebel peso". Due to many collectors remaining unaware of its existence, and since we believe no examples were publicly offered during the entire peak market era of 1978-1982, the value is not easily guaged. *Of the seven pieces known to me after research, this is tied for the second nicest.* Evenly struck and evenly worn with just minor hints of flan crudeness, this lightly toned example is fully Very Fine. . . . . ***

This specimen is unusually significant as it is the ***Medina #316 plate coin*** (Monedas Obsidionales from 1919, page 227) ***and is offered in his handwritten envelope.*** It is obviously well pedigreed; the only time it has been on the market was in Han Schulman's 3/66 auction (lot 1572 sold for $100). ---

*705 -***AYACUCHO*** ½ Real 1882LM, Y28, KM202. *Rare one-year emission during the Peruvian-Chilean War.* With a couple of small dings on the border but extremely sharply struck and virtually "as made". ***RRR*** since unholed and obviously untooled. A. UNC. 1100

---

706 -***Cuzco*** 1 Dinero 1886JM, Y15a, KM190a. Fine+. 25

707 -1/5 Sol 1865YB, Y16.1, KM191. *Scarce grade.* Nice A. UNC. 50

708 -1/5 Sol 1874YJ, Y16.1, KM191. Superb toned UNC. 65

709 -1/5 Sol 1915FG, Y16.2, KM205. Only minimal bagmarks and deep full luster. *Listed as a rare date.* UNC. 115

---

*710 **PUERTO RICO** Peso 1895, E1, Y5, KM14. Only very slight wear and minimal bagmarks. Fully lustrous AU-UNC 1000

---

711 **SANTO DOMINGO** 4 Maravedis (circa 1550), Carlos and Johana. ***Fifteen examples*** in more or less average condition. ***Lot.*** 125

712 -***Key countermark*** (circa 1577) on 4 Maravedis. Estrella (page 118) indicates the c/m lowered its value to 2 Maravedis. Struck on a large (but split) flan. VF+ 65

713 ---another with Key c/m but on a small flan example 65

*714 **UNATTRIBUTED** Countermark of "12" with "F-M" flanking it at 90 degrees, above and below. On a Mexico 2 Reales 1775FM. *The final lot in the May 1985 Norweb sale was the identical c/m on a Mexico 2R 1781; it sold for $460. Lot 1304 in the 1966 Gibbs auction was over a Mo 2R 1772.* One Caribbean collector believes the "12" represents 12 pence. Coin is a toned AVG; c/m is a bold VF. 425

---

*715 **URUGUAY - CROWN:** *"Montevideo"* Peso 1844, E1, Y10, KM5, usual horizontal axis. Superior specimen with nice deep old toning and only slightest wear evident. A. UNC. 1500

---

*716 -Peso 1878A, E4, Y14, KM17a. The ***RARE*** date known as the "Naugragio Peso" due to most being lost on a sunken ship by that name. Realtively nice rims and fields. Attractive, lightly toned VF+. 700

*717 *URUGUAY* - **MINOR COINAGE:** 5 Centesimos 1854/40, Y1, apparently Almeida 036 with the "empastado". No handling defects on a relatively nice flan. With obvious light luster throughout legends and thus ***RARE***. AU-UNC. 325

718 -20 Centesimos 1843/0, Y2, KM2.2. Slight flan clip and minor crudeness endemic to this type. Generally well struck details and original surface quality. EF 225

*719 -20 Centesimos 1843/0, Y2, KM2.2, Almeida 12. Exceptionally sharp strike on an unusually nice planchet. Very attractive chocolate EF-A. UNC. 725

*720 *URUGUAY (cont.)* 20 Centesimos 1854, Y2, KM2.3, Almeida 38, small "20" variety. On a nice flan (note the major lamination on the Almeida plate coin) with relatively nice rims and fields. Good strike and very little wear. Chocolate EF. 325

721 -40 Centesimos 1844, Y3, KM4, Almeida 18. ***"Female"*** *sunface variety with an apparent wig.* Typically very crude planchet plus one larger than usual fissure. *Unmistakeable die style.* VG-F 185

722 -40 Centesimos 1844, Y3, KM3, Almeida 27. *Normal sunface style.* Reasonably fully detailed but flan has usual noticeable minor defects from improper annealing. VF/VF+ 250

723 **VENEZUELA - GOLD:** 20 Bolivares 1886, Fr5, Y32. With two noticeable edge bruises. VF 110

*724 *VENEZUELA* - **CROWN:** 5 Bolivares 1886, E3, Y24. *Very similar in strike and quality to our 9/85 lot #300 (sold $850).* Very slight weakness in central area but essentially full deep luster with minimal handling evidence. A. UNC. 1000

*725 -5 Bolivares 1888, E5, Y24, Stohr 49. ***RRR grade*** *for this date; considered by some specialists as the scarcest date (except 1901) in very high grade. Our 5/83 Carlos Hernandez example, in similar grade, sold for $3550 with numerous serious bidders.* Superb rims and nice fields. Light gray toning and no real evidence of wear. Sharply detailed AU-UNC . . . . . ***

726 -5 Bolivares 1910, E13, Y24, *round "O".* VF-EF. 60

727 *VENEZUELA* - **MINOR COINAGE:** *Caracas* ¼ Real 1817, C2, large date/large flan. Rather nice VF 30

*728 -*Guiana* ½ Real 1815, C41. 90% detail. Glossy VF+. 95

*729 -"Fantasy style" 1 Real dated "781", C12. Struck by the royalists and republicans; *see lot 1009 in our October 1981 auction for a lengthy history.* Stohr assigns this "date" to the year of 1817. Very scarce since bold and attractive on a large flan. VF. 400

*730 -"Fantasy style" 2 Reales dated "816", C13 (see KM photo). Same history as previous lot; Stohr attributes this "date" to the year of 1816. *Our first handling of this particular item.* Note "M" to right of date is recut over an "L". 4.7 grams. ***RARE.*** Very Fine 225

*731 -***Republic*** silver ¼ Real 1822A, C31. Variety with eight large thick sunrays with 25 short thin ones interspersed. Short crossbar in fraction. *Variety is unlisted by Stohr for 1822 but corresponds to variety C of 1821 (thus a muling?).* ***Very scarce.*** Toned Very Fine 425

*732 -Silver ¼ Real 1829, C34. *Variety with long cornucopia extending into date and C.S. with dots.* Full original surfaces with much luster EF+. . . . 140

*733 -2 Reales of 1830 *but dated 1818;* Stohr 15 as a separate type but overlooked by KM and Craig. Rosettes flanking shield instead of "F-7" (Ferdinand VII). "LV-SVL-TR" variety. ***Ex-Norweb*** and the ***finest seen*** of this one-year emission. Semi-prooflike AU-UNC 250

734 -½ Centavo 1852, Y5, smaller diameter type *without* "H" mintmark. *Very scarce* one-year type in attractive chocolate EF. 100

735 -*Pattern* 2 Centavos 1863E, KM-Pn 2, Stohr-E22. **PAEZ** with his bust. Semi-prooflike with much red luster. AU-UNC 195

736 --same but EF-A. UNC. 115

737 -5 Reales 1858A, Y11. With full "LIBERTAD" plus full legend on ribbon. Unflawed, lightly toned Fine+. 365

738 -1 Centavo 1876, Y25. ***Special early striking*** *of this first-ever U.S.A. mint regular foreign coin issue featuring prooflike surfaces.* ***Choice*** UNC. . 500

739 -5 Centavos 1874A, Y12. Heavily toned EF 50

740 -¼ Bolivar 1894, Y20. Sharp brilliant UNC. 65

*741 -½ Bolivar 1888, Y21. ***VERY RARE*** *date-one of the most elusive post 1842 issues.* Unusually nice with naturally toned and unflawed surfaces. Attractive VF+ 1500

-- **PLEASE NOTE** that a triple asterisk (***) in the price column indicates the lot is available only via the December 2 auction.

*742 *VENEZUELA (cont.)* ½ Bolivar 1888, Y21. *Equal to the* ***FINEST KNOWN*** *of this* ***rarity.*** A late die state with noticeable die breaks in the word "ESTADOS" and below the bust (same as lots 1074-1075 in our 10/81 auction). Possible very light rub on the highpoints of the shield but essentially untouched and with full deep brilliance. The bust side is exceptional with very light golden toning. ***Very well struck in all components.*** *In 1982, this "prize" would have elicited a major reaction from the collector community in Caracas; it should still produce a noticeable response.* UNCIRCULATED . . ***

743 -½ Bolivar 1900, Y21, variety with Paris mintmark symbols flanking "Barre". Lusterlike EF. 150

744 -½ Bolivar 1901, Y21. Brilliant EF 225

745 -1 Bolivar 1886, Y22. Unflawed toned VF-EF/VF+ 85

*746 -1 Bolivar 1889, Y22. ***RARE DATE****-among the very difficult Caracas mint issues of that era.* Reasonably well detailed AVF/VF 685

*747 -1 Bolivar 1911, Y22. *Exceptionally* well struck with deep brilliant luster & very few bagmarks. ***Among the nicest of this denomination seen.*** Choice UNC. 325

---

*748 -2 Bolivares 1888, Y23. ***EXTREMELY RARE CONDITION*** of this ***VERY RARE*** *date. Over the past 18 years, we have never handled a piece above VF-EF nor seen one above EF. This is an item that should command strong bids even in the currently depressed local market.* Exceptionally boldly struck on bust and even in the central shield. Lightly toned full luster. Unflawed, uncleaned and very appealing. UNCIRCULATED. . . . . ***
